EDUCATION

2026 - Present	KELLOGG SCHOOL OF MANAGEMENT NORTHWESTERN UNIVERSITY <i>Candidate for Master of Business Administration degree, June 2028</i>	Evanston
2020 - 2021	MONASH UNIVERSITY <i>Master of Advanced Mechanical Engineering</i>	Melbourne
2015 - 2019	THAPAR INSTITUTE OF ENGINEERING AND TECHNOLOGY (TIET) <i>Bachelor of Engineering</i>	Patiala

EXPERIENCE

2025 - 2026	VANCITY <i>Climate Risk Management Consultant</i> - Led development of Vancity's climate risk framework from design through Board ratification, establishing risk oversight across a \$41B balance sheet - Embedded mandatory climate screening into credit adjudication for commercial lending, training underwriters and securing senior credit committee buy-in for assessment on all deals above \$5 mn - Designed and drove commercial and real estate decarbonization strategy, advancing interim emissions targets to 54% reduction by 2030 ahead of a 2040 net-zero goal	Vancouver
2024 - 2025	NOVISTO <i>ESG Data Management Analyst</i> - Led a new 4-person analyst team to deliver a full reporting workflow revamp in 3 months, reducing feature release times by 75% - Drove product expansion into 14 new countries by advising engineering and product teams as firmwide SME on carbon accounting, double materiality, and global disclosure standards, navigating varied legal requirements - Owned the product requirements process end-to-end; translating complex regulation into actionable specs and aligning non-technical executive stakeholders across five sectors	Montreal
2022 - 2024	JP MORGAN CHASE & CO <i>Climate Risk Analyst</i> - Spearheaded the methodology development and implementation of a climate readiness score, enabling the firm to track decarbonization progress for \$1.1 tn in credit exposure tied to Net Zero commitments - Mitigated potential reputational damage and a \$75 mn regulatory fine by developing a novel risk identification framework under tight deadlines, uncovering \$140 bn in environmental risk concentrations within the portfolio - Partnered with Wholesale Credit Risk to create bespoke transition risk scenarios quantifying exposure across a \$650 bn portfolio in Oil & Gas, Electric Power, and Auto Manufacturing	Mumbai
2022 - 2022	S&P GLOBAL <i>Low Carbon Commodity Analyst</i> Developed emissions quantification models for oil fields and shales representing 82% of global oil and gas production; integrating data into the flagship platform to enable climate-informed investment decisions	Gurugram
2021 - 2021	ENGIE IMPACT <i>Sustainability Intern</i> Developed net-zero transition strategies for mining clients by optimizing flux, transportation, and energy storage, under various investment scenarios, resulting in potential savings of \$40 mn	Melbourne
2020 - 2021	LACTALIS <i>Sustainability Intern</i> Analyzed emissions reductions from solar PV adoption in the dairy sector, informing the requirements for a \$75 mn provincial solar energy policy proposal approved by the legislative assembly	Melbourne

ADDITIONAL DATA

- Sustainability and Climate Risk (GARP); Certificate in ESG Investing (CFA Institute); LEED Green Associate (USGBC)
- Australia Awards Scholarship: Selected as 1 of 8 recipients across India for the highly competitive, fully-funded scholarship by Department of Foreign Affairs and Trade (DFAT), Australia (2020-21)
